Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1616

This application (serial number 09/988340) has been transferred to AU 1616 to a different examiner for further prosecution. After review of RCE filed, a restriction / election requirement is set forth below.

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 3-8,10,12-40,52,53,56-58, drawn to an aqueous composition comprising a pesticide plus a first surfactant selected from (a) a dialkoxylated amine or quaternary ammonium salt of formula (7) or (8) (b) aminated alkoxyated alcohols of formula (9) or (10), (c) etheramines or ether quaternary ammonium salts of formula (5) or (11), (d) monoalkoxylated amines or quaternary ammonium salts of formula (12) or (13), (e) alkoxyated poly(hydroxyalkyl)amines or formula (14) , (f) monoalkoxylated amines of formula (15), monoalkoxylated quaternary ammonium salts of formula (16) (h) amines of the formula (17), (18), (19) or (20) and a second surfactant selected from (a) alkoxyated diamines of formula (21), (b) diamines of formula (22), (c) diamines of formula (23), diamines of (24), dipoly(hydroxyalkyl)amines of formula (25), and alkoxyated triamines of formula (27).

Group II, claim(s) 42-47,49,51,54,55,59-61, drawn to an aqueous composition comprising a pesticide plus etheramine of formula (5), plus a compound of formula (27).

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The components for invention I may not be the components found in the art for invention II.

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Art Unit: 1616

Pesticides and surfactants.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The following claim(s) are generic: claims 3-8,10,12-40,42-47,51-61.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: The components for invention I may not be the components found in the art for invention II.

It is requested that Applicant elects a composition comprising a specifically named pesticide plus all specifically named or completely defined surfactants for the elected composition. If applicant desires additional ingredients for the elected composition, it is being requested that Applicant specifically name or completely define all additional ingredients. Claims comprising additional ingredients not specifically named or completely defined will be considered non-elected.

A telephone call was made to Attorney Harper on 3/5/07 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
